# V-Series **EXPRESS** Commercial Washer-Extractors

*Dexter V-Series **EXPRESS** washers raise the bar for commercial washer performance. High-speed spin extracts more water from a load resulting in lower drying costs. Laundry owners save energy and customers save time. The bottom line is higher profit potential.*

*All V-Series **EXPRESS** washers are available in coin, dual-coin, debit card, and on-premise laundry configurations.*

#### COMMERCIAL ENGINEERING:

- **Save water** with "sump free" design
- **304 Stainless Steel cylinder**, outer tub, top, front, and side panels keep Dexter washers looking good
- **Heavy-duty Sur-Coat Frame** is built like a battleship to last a lifetime
- **Over-sized bearings and seals** run smooth and add to machine life

#### VFD TECHNOLOGY:

- **Reduce installation** cost by using single or three phase power
- **Extend motor life** by ramping current inrush
- **Save electricity** with lower running amperage draw
- **Lower demand spikes** can reduce electricity rates

#### 200 G-FORCE EXTRACTION:

- **Save drying energy** with 200 G-Force washers that extract more water
- **Enhance customer turnover** with better washer and dryer performance

#### PALM OS® READY:

- **Wireless communication** with built-in infrared port
- **Save programming time** using a handheld computer running optional Palm OS® software
- **Easily customize** cycles, water temperatures, pricing options and more

#### MARKETING BENEFITS:

- **Charge higher vend prices** for warm and hot cycles with flexible pricing by water temperature feature
- **Allow customers to easily purchase additional wash time** with plus cycle option
- **Offer creative promotions** with automatic time-of-day pricing function

#### CUSTOMER FRIENDLY DESIGN:

- **Large, easy to use door** for convenient loading and unloading of laundry
- **Easy-to-read digital display** including cycle time remaining information
- **Soft touch cycle selection buttons** with temperature icons
- **Ultra-quiet machine operation** improves the laundry environment

\* Results may vary depending on load and machine type.
